How to "Allow" Emails from the DCAMM CE Portal

Sometimes, email clients will automatically block emails sent from certain domains. Please follow the steps below for the email client you use to make sure you receive email notifications from the portal.

Outlook

- 1. Open **Outlook** in your web browser
- 2. Click the gear icon () in the top-right corner to open the **Settings** window
- 3. Select Junk email
- 4. In the Junk email window, click the Safe senders and domains tab in the Senders section
- 5. Click Add safe sender

Settings	Layout	Junk email	×
এ Search settings এ Account ট্টে General	Compose and reply Smart suggestions Attachments	Incoming mail handling Select how Outlook should handle new messages that you receive.	ĺ
Mail Calendar See People	Rules Conditional formatting Sweep	Standard Mail identified as possible junk will be automatically moved to the Junk Email folder	
	Junk email Quick steps Customize actions Sync email	O Strict Only senders and domains you've marked safe will be delivered to the Inbox	
2	Message handling Forwarding Retention policies S/MIME Groups	Security options When reporting phishing or junk, always ask me before sending a report. Trust email from my contacts	
		Safe senders and domains Blocked senders and domains + Add safe sender Q. Search list Don't move email from these senders to my Junk Email folder.	

- 6. Type the domain you want to add: <u>em985.stonewallsolutions.com</u>
- 7. Click **OK** to add it to your list
- 8. Click Save

Gmail

- 1. Open Gmail in your web browser
- 2. Click the gear icon () in the top-right corner and select See all settings
